

Dear Zinc Supporter

Statement from Zinc regarding Coronavirus / COVID-19

As the COVID-19 situation continues to develop, we just wanted to take this opportunity to keep you informed with what is happening here at Zinc. Please be assured that the wellbeing of our staff, students, participants, visitors and the whole community is our priority and we are taking steps to protect everyone and ensure that we all continue to thrive in these difficult times.

Our staff are actively following government policy at the time of writing (Wednesday 16th March), and we are monitoring any changes in the guidance and will amend our own policies and behaviour accordingly. Our Aspire Learning classes have been cancelled this week and we are taking the opportunity of the quieter time by instigating a deep clean of our premises.

A number of our own regular activities, including Cinefriends and our Easter Kids Activities are STILL running, until we are told we are no longer permitted to open for them. These may have to be cancelled nearer the time depending on current advice and guidelines. We have had to cancel our Easter Egg Hunt and hope to reschedule this as a summer hunt later on in the year.

Activities, events and classes run by external providers are subject to the individual providers, we recommend you contact providers directly to double check the situation. If we are made aware of any postponement or cancellations we will update our website and social media accordingly.

Basement Fitness at Zinc is now closed until further notice, with all classes no longer running. Our trainers are currently working on some online material to help keep everyone well and healthy during this period of social distancing.

This is a rapidly evolving situation and we will continue to follow the guidance issued by Public Health England and World Health Organisation.

Please stay safe and know that we will be here at Zinc for you whenever you are able to return! Please keep an eye on our social media and website for further updates.

Our very best wishes.

The Team at Zinc.
